

What do we do = The Win!

LukeCamp provides summer day camp and school break programming for underserved children age 7 - 14 who live in Southwest Cobb and West Atlanta. We develop meaningful relationships with the children and we foster this through team building games, fun activities, field trips to new destinations each day and group discussions themed around life principles and virtues found in scripture.

Who makes the win possible = You!

We are engaging energetic, compassionate and committed individuals to serve as camp counselors and mentors this summer and throughout the school year.
